Modernistic Club News

Regular preaching service was held at Galilee Baptist Church Sunday at the 11 a.m. morning worship. An appreciate audience came out, and enjoyed a good service. Pastor Lawing used as theme ... "Freedom in Christ." The sermon was well delivered, and all who attended gained helpful information.

The choir sang well, under the direction of Mr. Tim Lawing. Two beautiful solos were given by Mrs. Evelyn Berry.

The offering for the day was very liberal.

Galilee Baptist Sunday School journeyed to Salem, Va., and had a very delightful picnic at Lakeside Park, Sat, Aug. 18. The Sunday School appreciated the bus service from New Life Baptist Church of Bedford very much.

We extend many thanks to Rev. Beamon for allowing the Sunday School to use the bus service of his church. The Sunday School extends thanks to Deacon Rose Thompson and his son, Danny Lee, for being so kind and patient with all aboard Saturday. All the children and adults had a very enjoyable trip to Salem and back home safely.

Thanks to all who helped the Sunday School of Galilee Baptist Church to have had a lovely picnic, on Saturday. Leaving time was at 9 a.m. The return home was scheduled for 5 p.m.

We thank God for being so very kind to all of us. There were (30) thirty members, and friends on the bus. The picnic we think, was very successful. Sorry some of our members were unable to attend, due to other engagements.

We learned that revivals which were held at Springfield, Chestnut Grove and Mt. Zion Baptist, Concord, Va., opened up in a very fine way. There were large crowds at all three churches, and plenty of good food for all who felt hungry, after the morning worship.

We trust that during the entire week all three churches may have a great time this week, both spiritual and financially.

We trust that all of the sick here, and elsewhere are on the road to recovery. May God be with each one at all time of need.

USDA Review Underway On RECP

A mid-year review is now underway on the Rural Environmental Conservation Program (RECP) that shares with farmers costs for farm conservation work this year, according to James R. Ford, Jr., Chairman of the County Agricultural Stabilization and Conservation Committee.

"RECP deals with today's significant needs of our soil, water, timber and wildlife resources," Ford said. "Drawing from the last few months' experience, the county program development groups, who have been helping carry out technical and administrative work this year, will be developing suggestions and recommendations to send to the Washington office of ASCS, U. S. Department of Agriculture."

To further identify and resolve problem areas that might have developed, discussions are also being held with representatives of an interagency administrative committee from the Washington and the natural specialists in selected state county offices.

Mr. Ford said that comments received from these will be given consideration developing the 1975 production cost sharing program.

RECP was developed by Agriculture Department the Soil Conservation Domestic Allotment Act Title X of the Agric ultural Consumer Protection 1973. About 75 federal, and local agencies, and organizations concerned natural resources partic in its planning and ment. USDA's Forest S (FS) and Soil Conse Service (SCS) are res for providing technical guidance to the state an ASC committees that ad ter RECP.

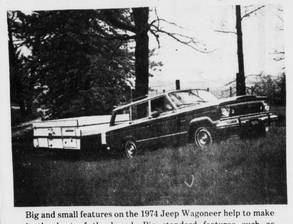
Jeep - Toughest 4-Letter Word On Wheels

4-Wheel Drive Jeep Vehicles: So you can see and enjoy the land that is worth preserving.



Jeep vehicles are built to take you into the normally inaccessible places of our nation so that you may see and enjoy its natural beauty. We want you and future generations to enjoy this beauty unmarred, undiminished. We ask you and every 4-wheel drive owner or operator to treat the heri – tage of our beautiful landscape carefully. Observe all regulations and laws governing the use of private and public lands. Respect the land.

Its natural beauty can never be replaced.

Big and small features on the 1974 Jeep Wagoneer help to make it the best of the breed. Big standard features such as Quadra-Trac automatic full-time 4-wheel drive, Turbo Hydramatic transmission, 360 V-8 engine, variable ratio power steering and power front disc brakes. Small features like a redesigned defroster system with larger duct outlets for improved heat distribution and a stronger fuel tank filler neck for increased durability. Jeep Wagoneer is available two ways: standard or Custom model. Either has thick foam padded front and rear bench seats, roomy interior, wide windshield. The Wagoneer looks smart at the country club and handles well towing a trailer or negotiating a rock-strewn stream.

JEEP TRUCKS take the limits off. You can find a 4-wheel drive Jeep truck to fit your requirements for work or play, on-road or off-road. They are available in three choices of trim: standard, custom and pioneer. A number of special camper options and a special camper package are available. So are wide range trailer towing options and, importantly, Jeep's exclusive automatic full-time 4-wheel drive system, Quadra-Trac is offered on every Jeep Truck. So, if you are an outdoorsman who works hard or plays hard, get the pickup truck that is hard to beat. Get the 1974 Jeep Truck.

Jeep Cherokee the longest wheelbase in their class for a oth ride plus standard full-foam front bucket seats and foam rear seat, attractive interior and exterior trim and 4-wheel drive ruggedness you can expect from Jeep vehicl

Jeep CJ-5 is first and foremost a 4-wheel drive vehicle. It possesses legendary built-in toughness with features like heavy-duty frame and strong steering control assemblies. It is highly maneuverable because of such features as an 8-inch-high ground clearance, short turning radius and short front and rear overhang.

...stance, dry and semi-dry sausages were made in the warm climate of Italy because they could be kept indefinitely without refrigeration or cold weather. In the cooler climates of the Northern countries, fresh and cooked sausages, which require cold storage, were created.

Here in America, the Indians combined chopped dried meat with dried berries, then shaped it into a cake. This was a primitive form of dry sausage. As settlers arrived from Europe, the wurstmachers adapted old world recipes to fit the taste preferences and native ingredients of the new world, creating new combinations of spices, meats and condiments.

Americans today consume about 3.5 billion pounds of sausages each year. That's almost 17 pounds for each person each year. Why do we eat so much sausage? Because it tastes so good! And, it's convenient, nutritious and costs less per serving than fresh meats.

Today over 200 types of sausages are produced by some 2300 processers in the United States.
